Current Type:

Dc

End Application:

Amplifier assembly 9900-397

Duty Cycle:

Adjustable

Stroke Length:

3.000 inches

Manual Override:

Not included

Product Name:

Amplifier assembly 7.25 hydraulic

Special Features:

Case: ductile iron. Piston diameter: 7.25 servo type: spring and differential. Shaft connection: threaded (std). Actuator type: eg-3p integral.

Grade type: military grade ductile. Hydraulic connections: threaded (straight). Mounting: vertical 4 bolts. Drain location: both side.

Hydraulic pressure: 100 psi.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30500
