Current Type:

Ac input

Teeth Quantity:

45 single end

Shaft Rotation Direction:

Clockwise single end or counterclockwise single end

Duty Cycle:

Continuous

Winding Type:

Synchronous

Geared Head Output Shaft Alignment Position:

Inline w/armature single end

Torque Rating And Type:

11.2 foot-pounds running

Tempurature Rating:

40.0 operating degrees celsius and 55.0 ambient degrees celsius

Connection Type And Voltage Rating In Volts:

220.0 line to neutral single input

Shaft End Characteristic:

A23 single style single end

Phase:

Three input

Frequency In Hertz:

60.0 input

Terminal Type And Quantity:

7 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A271a0
