Major Diameter:

0.375 inches

Overall Length:

1.560 inches

Outside Diameter:

0.375 inches

Bearing Type:

Plain

Securing Hole Quantity:

1

Length From Universal Joint Spider Centerline To Hub End:

0.890 inches

Hub Machined Surface Finish Outside Length:

0.690 inches

Bore Style (non-core):

Err-090

Outer Periphery Machined Surface Finish:

Included

Hub Bore:

Included

Hub Securing Hole:

Included

Securing Hole Location:

0.130 in. From end

Securing Hole Thread Size Designator:

1/8-40

Outside Shape:

Round

Special Features:

Altered from fscm 71041, p/n js37b for use on 6760008790902; taper minor diameter: 0.187 in. ; connection end type: hub

Style Designator (non-core):

Err-090

Fsc Application Data:

Photographic equipment and accessories

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A521w0
