Spline Minor Diameter:
0.3510 inches second end and 0.3520 inches second end
Spline Major Diameter:
0.3750 inches second end and 0.3770 inches second end
Overall Length:
Between 0.510 inches and 0.520 inches
Spline Quantity:
36 first end
Overall Diameter:
Between 0.498 inches and 0.499 inches
End Application:
Valve, air-cabin pressure, aircraft
Bore Shape:
Straight both ends
Spline Pressure Angle In Deg:
45.000 first end
Spline Length:
0.203 inches first end
Spline Type:
Involute first end
Body Material:
Stainless steel
Style Designator:
Plain sleeve
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:

A522c0
