Overall Length:

5.000 inches

Overall Diameter:

5.750 inches

Bore Shape:

Tapered first end

Features Provided:

Keyway and bore counterbore

Taper Largest Diameter:

0.9595 inches both ends and 0.9600 inches both ends

Body Material:

Steel

Special Features:

Gcounterbore diameter, first end: 3.000, 3.005, and 2.375 in. ; counterbore diameter, second end: 2.375 in. ; counterbore depth, first end: 0.188 and 0.500 in. ; counterbore depth, second end: 0.625 in. ; taper length: first end, 2.500 in. , second end, 2.625 in. ; distance from center of bore to bottom of keyway: 0.60475 in. ; flange width: 2.500 in. ; taper per foot: both ends, 0.625 in. ; hub diameter: 2.250 in. ; 1 keying facility provided each end; keying facility width: 0.266 in. Both ends; counterbore length: 2.000 in. both ends; raised face 1/8 in. High or one half end coupling which fits into counterbore of other half

Style Designator:

Plain flange

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
