Special Features:

Reference data and literature: t.O. 5p5-3-67-4, fig 2, index 50, page 2-5; bellows must stand internal pressure of 125 psi when restrained without permanent deformation; hardness of bellows to bg rockwell c-40 or higher; temp operating-100e to plus 500f; fsc application data: transmitter engine pressure ratio, fscm 73030, p/n 4189-11000, 6620009453072bj;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A513q0
