**End Application:**

Switch assembly

**Design Type:**

Single reduction

**Gear Type:**

Spur

**Total Ratio:**

4 to 1

**Lubrication System:**

Splash

**Input Shaft Quantity:**

1

**Output Shaft Quantity:**

1

**Shaft Position:**

Input and output shafts in line with ea other on horizontal plane to mtg surface

**Features Provided:**

Shipboard usage design

**Special Features:**

Input shaft & output shaft type-straight, double flatted; straight input & straight output shaft diameter 0.250 in.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**
