Spline Minor Diameter:

1.147 inches

Spline Major Diameter:

1.355 inches

Outside Diameter:

12.250 inches

Overall Length:

0.750 inches

Thickness:

0.150 inches

Spline Quantity:

26

Pitch Diameter:

1.3000 inches

Design Type:

Dry

Tooth Arrangement:

Continuous

Design Form:

Cushion segment

Spline Pressure Angle In Deg:

30.0

Spline Type:

Involute

Disk Type:

Internal teeth

Cushion Segment Quantity:

6

Damper Spring Quantity:

8

Teeth Quantity Per Disk:

26

Teeth Pitch Diameter:

1.300 inches

Special Features:

Damper spring encasement provision included; integral hub included

Flexibility:

Flexible

Furnished Items And Quantity:

8 damper spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A521p0
