Current Type:

Dc input

Mounting Facility Type And Quantity:

1 slot and 2 threaded hole

Features Provided:

Thermal protective device

Connection Type And Voltage Rating In Volts:

24.0 line to neutral single input

Shaft End Characteristic:

A14 single style single end

Fsc Application Data:

Canopy, aircraft

Reference Number Differentiating Characteristics:

As differentiated by the mfr source control dwg no.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A271a0
