Overall Length:

0.970 inches

Special Features:

Surface treatment: passivated, qq-p-35, type 4; distance from bore centerline to body keying facility bottom/top: 0.281" nom.; body keying facility wd: 0.040" nom.; body keying facility depth/ht: 0.485" nom.; o/a outside dimension: 0.602" od; hub od: 0.249" nom.; flange thickness: 0.485" nom.

Material:

Stainless steel

Material Specification:

Qq-s-764, class 303, condition a federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
