Fabrication Method:

Molded

Major Diameter:

1.375 inches

Thickness:

0.062 inches

Hole Arrangement Style:

Indefinite (note: for definite drilling patterns with mounting holes only)

Mounting Hole Diameter:

0.094 inches

Strengthening Feature:

Internally molded-in reinforcement

Minor Diameter:

0.375 inches

Lining Style:

Clutch disk

Mounting Hole Circle Diameter:

1.000 inches

Circular Pattern Hole Type And Quantity:

2 thru-hole single securing circle

Attachment Method:

Riveted

Supplementary Features:

Item has been reviewed for asbestos material. The current approved sources 03956 have indicated their part number contained asbestos prior to 1984. They continue to manufacture the same part number without asbestos material after 1984

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A230a0
