Body Style:

Multiple positioning holes

Spline Major Diameter:

0.531 inches

Overall Length:

0.940 inches

Outside Diameter:

2.250 inches

Spline Quantity:

16

End Application:

2350-01-235-5458; mount kit, m1 mine ro m1 tank

Bore Shape:

Splined

Spline Pressure Angle In Deg:

30.000

Spline Type:

Involute

Product Name:

Adapter

Special Features:

Spline minor dia. 0.469 in. Nom.; flange thickness 0.310 in. Nom.; hub od 1 in. Nom.; spline length 0.850 in. Nom.; counterbore feature not included; positioning facility q type 2; positioning facility bolt circle dia. 1.730 in. Nom.; both positioning facilities 1/4-20unc-2b threaded holes; test data document; bore length 0.940 in. Nom.

Material:

Steel

Material Specification:

Steel alloy 4130 or 8630, astm a322 or a331 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A521x0
