General Description:

Subassembly dim. 15.030 in. O/a lg, 7.875 in. O/a h, 11.000 in. O/a dia; output splined shaft is 23 tooth 12/24 pitch; frame mounting bolt holes 0.625 dia, 9 places; output rotation same as input rotation; input-sae 6b internal spline; torque capacity- 15,000 in./lb, continuous 30,000 in./lb, intermittent; 27.98: 1 ratio; brake static capacity type 2239 in./lb

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
