Design Type:

Differential planetary reduction

Total Ratio:

5.29 to 1

Shaft Position:

Output shaft extends to left

Special Features:

Gear type-planetary; torque capaci type 15, 000 in./lb continous-30, 000 in./lb intermittently; brake static capaci type 5020 in./lb; output rotation same as input rotation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A522e0
