End Application:

Ramp master

Design Type:

Differential planetary reduction

Input Shaft Type:

Keyway

Input Shaft Quantity:

1

Output Shaft Type:

Keyway

Output Shaft Quantity:

1

Shaft Position:

Input shaft extends to the front, output shaft extends to the back

Features Provided:

Shipboard usage design

Special Features:

Gear type-internal; straight input shaft diameter 0.750 in.; straight output shaft diameter 1.500 in.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
