Body Material:

Aluminum

Temperature Rating:

-40.0 degrees fahrenheit 165.0 degrees fahrenheit

Pressure Rating:

Between 10.0 pounds per square inch and 60.0 pounds per square inch

Integral Valve Operation Method:

Pneumatic

Port Location And Quantity:

1 cylinder head end 1 piston rod end

Port Style:

Plain

Port Thread Series Designator:

Nptf

Port Pipe Thread Size:

0.250 inches

Special Features:

2 in. Stroke

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
