Inside Diameter:

Between 17.770 inches and 17.810 inches

Outside Diameter:

Between 26.220 inches and 26.240 inches

Overall Length:

0.690 inches

Extended Length:

0.69000 inches

End Application:

Tank m1 abrams family of vehicles

Specific Use:

Sub assembly of the recuperator matrix assembly

End Connection Type:

Welded

Maximum Operating Pressure:

200.0 pounds per square inch

Special Features:

38 separate parts in this assembly

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513q0
