Body Material:

Aluminum alloy

End Application:

S/s generators onboard 180 ft wlb slep coast guard vessels

Shaft Rotation Direction:

Clockwise

Special Features:

3600 rpm reverse acting; item is a model egb-2p proportional electro-hydraulic actuator combined with an isochronous or droop mechanical-hydraulic governor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
