Inside Diameter:

7.575 inches

Outside Diameter:

Between 8.585 inches and 8.615 inches

Overall Length:

Between 1.650 inches and 1.850 inches

Extended Length:

3.000 inches

End Application:

Agm129a

Criticality Code Justification:

Feat

Special Features:

Hardness critical process per 40a08958 on surface treat & protect fin

Material:

Titanium alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A513q0
