Overall Length:

0.875 inches

Spline Quantity:

16 both ends

Overall Diameter:

2.375 inches

End Application:

Coupling drivesaver used on system, propulsion shipboard

Bore Shape:

Straight first end

Spline Type:

Involute both ends

Body Material:

Steel

Material Specification:

47b mlb 243-010 item 76 mfr ref single material response

Style Designator:

Plain sleeve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A522c0
