Second End Connection Type:

Hub, bored

End Application:

Nuclear reactor boundry area

Design Type:

Block and pin

Hub Bore Diameter:

1.000 inches

Product Name:

Universal joint

Special Features:

1st end accommodates 1" splined shaft; 2nd end keyway and drilled hole for set screw or pin and drilled 0.257" through shaft and u-joint; nha handwheels and reach rod assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A521w0
