Overall Length:

45.690 inches

Overall Diameter:

6.380 inches

Product Name:

Coupling, vertical shear

Special Features:

Operating conditions, normal torque 4, 427 lb-in, shear torque 15, 000 lb-in; incorporates two disc pack assemblies.

Functional Description:

Flexible coupling with 12 shear pins in the driving end (top) designed to shear in the event of a torque overload.

General Description:

Kop-flex inc, flexible coupling with torque overload safety device.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
