Body Style:

Flexible spider, insert type, through bore

Overall Length:

53.9 millimeters

Outside Diameter:

50.0 millimeters

End Application:

Ship, air compressor, power system

Bore Shape:

Straight

Features Provided:

Keyway

Product Name:

Airend coupling

Special Features:

Connects airend shaft to motor shaft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A521x0
