Current Type:

Ac input or dc input

End Application:

170 ft. Patrol coastal (pc-1) class ship

Shaft Rotation Direction:

Clockwise single end or counterclockwise single end

Mounting Method:

Flange

Mounting Facility Type And Quantity:

4 unthreaded hole

Geared Head Output Shaft Alignment Position:

Angled to armature/rotor axis single end

Cooling Method:

Fan cooled and oil

Shaft End Characteristic:

A9 single style single end

Product Name:

Master xl gearmotor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A271a0
