**Current Type:**

Ac input or dc input

**End Application:**

170 ft. Patrol coastal (pc-1) class ship

**Shaft Rotation Direction:**

Clockwise single end or counterclockwise single end

**Mounting Method:**

Flange

**Mounting Facility Type And Quantity:**

4 unthreaded hole

**Geared Head Output Shaft Alignment Position:**

Angled to armature/rotor axis single end

**Cooling Method:**

Fan cooled and oil

**Shaft End Characteristic:**

A9 single style single end

**Product Name:**

Master xl gearmotor

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A271a0
