Overall Length:

0.770 inches

Outside Diameter:

0.375 inches

Taper Minor Diameter:

0.1200 inches second end

End Application:

An/tpt-t1 (v) radar set unmanned threat emitter

Bore Shape:

Tapered both ends

Design Type:

Clamping hub

Taper Largest Diameter:

0.1250 inches first end

Product Name:

Six beam flexible coupling-clamp style

Special Features:

Coupling is stainless steel; this is a one piece construction, high flexibility, no lubrication required; used on electronic end items; the "co" of the part number indicates coupling, and the "s" indicates stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A522b0
