Body Style:

Flexible spider, insert type, through bore

Spline Major Diameter:

1.500 inches

Overall Length:

3.400 inches

Outside Diameter:

6.900 inches

Spline Quantity:

17

End Application:

Coupling flex

Bore Shape:

Splined

Spline Pressure Angle In Deg:

30.000

Spline Type:

Straight

Product Name:

Coupling hub

Special Features:

Item has a steel bushing around the bore, and a clamp feature

Material:

Magnesium

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A521x0
