End Application:

Marine gear, mdl zf w220 1.50: 1 ratio

Product Name:

Transmission, hydraulic

Special Features:

Zf w220; vertical offset, direct mount marine transmission; rated input: 221kw (297hp); description: robust design withstands continuous duty in workboat applications; fully works tested, reliable and simple to install; reverse reduction marine transmission with hydraulically actuated multi-disc clutches; compatible with all types of engines and propulsion systems; features: case hardened and precisely ground gear teeth for long life and smooth running; output shaft thrust bearing designed to take propeller thrust astern and ahead; smooth and reliable hydraulic shifting with control lever for attachment of push-pull cable; suitable for twin engine installations (same ratio and torque capacity in ahead or astern mode); emergency -get home- capability; durable cast iron construction; compact, space saving design with increased bearing and clutch capacity for heavy duty, and matching oil cooler
