Overall Length:

4.120 inches

Outside Diameter:

4.000 inches

Bore Diameter:

2.2500 inches both ends

Bore Length:

1.6900 inches both ends

End Application:

Flanged sleeve-spacer type coupling

Bore Shape:

Rough stock both ends

Design Type:

Bushing

Features Provided:

Spacer/center member

Product Name:

Flexible shaft coupling

Special Features:

Flanged sleeve-spacer type; flange fasteners are self-locking socket head cap screws-spacer flange tapped; consists of 2 standard halves assembled to the spacer element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A522b0
