**Key Width:**

0.175 inches first end

**Bore Diameter:**

2.0050 inches first end

**Bore Shape:**

Straight first end

**Keying Facility Quantity:**

1 first end

**Securing Method:**

Screw first end

**Insert Material:**

Rubber butadiene nitrile

**Product Name:**

Coupling, shaft, flex

**Special Features:**

Tire type full flex coupling assembly. Matt; nuna n rubber insert steel outer. One side is straight through bore the other is splined 14 teeth 12 24dp.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A522b0
