Overall Length:

0.770 inches

Outside Diameter:

0.375 inches

End Application:

Pc10296 and r9431890 - accessory kits, elec

Bore Shape:

Straight through bore

Furnished Items And Quantity:

Setscrews, q type 2

Design Type:

Single helical flexure

Securing Method:

Screw both ends

Product Name:

Six beam flexible coupling

Special Features:

Material is 303 stainless steel; non-reversing working torque 6.6; one piece construction; no backlash; constant velocity; torsionally rigid; high flexibility; small and lightweight; high or low speeds; no temp sensitive; no lubrication; reversible; unaffected by climactic conditions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A522b0
