Product Name:

Coupling, flexible

Special Features:

Coupling size 101; coupling style close coupled; coupling type flexible disc; horsepower (max) 78.1 hp; continuous torque (max) 693 in lb; hub straight bore diameter (hub 1) 0.8750 inch; hub straight bore diameter (hub 2) 1.0000 inch; distance between shaft ends 1.3900 inch; disc pack material tomaloy; hardware material alloy steel; hub material (hub 1) carbon steel; hub material (hub 2) carbon steel; coupling length 4.150 inch; center member material carbon steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A522b0
