Body Material:

Aluminum

Temperature Rating:

-20.0 degrees fahrenheit and 210.0 degrees fahrenheit

Overall Height:

7.260 inches

Overall Width:

6.440 inches

Pressure Rating:

120.0 pounds per square inch

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Single acting single cylinder

Product Name:

Keystone mrp pneumatic actuator

Special Features:

Aluminum body is black powder coated; there is a self-contained mounting base and standard nitrile seal option

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
