Overall Length:

9.440 inches

Outside Diameter:

1.750 inches

End Application:

Nssn class sub, upper hatch inboard drive assembly

Design Type:

Double joint

Outside Shape:

Round

Connection End Type:

Hub, square bore second end

Product Name:

Universal joint block type, double, mechanical

Special Features:

Item has 0.874/0.875 inch od spline one end x 3.250 inch full lgt and 0.750/0.751 inch square one end x 1.560 inch full lgt iaw mil-u-20625, cl-b (mod)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A521w0
