**Overall Length:**

9.440 inches

**Outside Diameter:**

1.750 inches

**End Application:**

Nssn class sub, upper hatch inboard drive assembly

**Design Type:**

Double joint

**Outside Shape:**

Round

**Connection End Type:**

Hub, square bore second end

**Product Name:**

Universal joint block type, double, mechanical

**Special Features:**

Item has 0.874/0.875 inch od spline one end x 3.250 inch full lgt and 0.750/0.751 inch square one end x 1.560 inch full lgt iaw mil-u-20625, cl-b (mod)

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A521w0
