Bore Style:

Plain both ends

Design Type:

Spur second gear

Construction:

Assembled

Outside Diameter:

0.4780 inches second gear

Nominallength:

0.440 inches

Bore Diameter:

0.1874 inches both ends

Hub Style Designator:

Threaded second end

Precision Classification:

Is0 precision class 1 all gears

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-225/8, t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A270a0
