Attachment Method:

Clamp

Pitch Diameter:

1.3333 inches

Teeth Quantity:

128

Nominallength:

0.281 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.035 inches second end

Face Width:

0.158 inches

Precision Classification:

Quality number 12

Style Designator:

Peripheral face, hubless

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
