Attachment Method:

Clamp

Pitch Diameter:

2.0833 inches

Teeth Quantity:

200

Outside Diameter:

2.102 inches

Nominallength:

0.375 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.175 inches first end

Face Width:

0.061 inches

Bore Diameter:

0.250 inches both ends

Precision Classification:

Quality number 12

Material:

Aluminum alloy body

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
