Body Style:

Webbed, offset, solid

Spline Quantity:

9 both ends

Pitch Diameter:

6.6250 inches

Teeth Quantity:

53

Bore Style:

Involute spline both ends

Spline Pitch Diameter:

0.5625 inches both ends

Outside Diameter:

6.875 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

1.313 inches first end

Face Width:

0.500 inches

Bore Diameter:

0.625 inches both ends

Hub Style Designator:

2 steps first end

End Length:

1.000 inches first end

End Diameter:

1.250 inches second end

First Step Length:

0.688 inches first end

First Step Diameter:

5.500 inches second end

Second Step Length:

0.031 inches first end

Second Step Diameter:

1.500 inches first end

Material:

Iron cast

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
