Body Style:

Spoked

Pitch Diameter:

3.7500 inches

Teeth Quantity:

60

Face Type:

Concave

Bore Style:

Plain both ends

Outside Diameter:

3.920 inches

Tooth Direction:

Right

Mating Thread Lead Quantity:

2

Pressure Angle:

14.5000 degrees

Helix Angle:

11.3166 degrees

Distance Between Body Face And Protruding Hub End:

0.438 inches first end

Face Width:

0.312 inches

Bore Diameter:

0.375 inches both ends

Hub Style Designator:

Pinned first end

Hub Diameter:

0.875 inches first end

Material:

Copper alloy

Style Designator:

One protruding hub, one flush hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
