Pitch Diameter:
Between 0.9365 inches and 0.9375 inches

Teeth Quantity:
90

Nominallength:
0.312 inches

Tooth Form:
Special

Pressure Angle:

| Distance Between Body Face And Protruding Hub E | ind: |
|---|------|
| 0.187 inches first end                          |      |

Face Width:

20.0000 degrees

0.125 inches

Hub Diameter:

0.375 inches first end

**Precision Classification:** 

Quality number 12

**Style Designator:** 

Protruding hub

3 .

Shelf Life:

N/a

**Unit Of Measure:** 

Demilitarization:

No

Fiig:

A27300
