Pitch Diameter:

0.2000 inches

Teeth Quantity:

24

Outside Diameter:

0.216 inches

Distance Between Body Face And Protruding Hub End:

0.688 inches first end

Face Width:

0.094 inches

Material:

Steel comp 303 or steel comp 416

Material Specification:

Qq-s-763, cond a federal specification 1st material response or ams 5610 assn standard 2nd material response

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
