Body Style:

Webbed, offset, solid

Attachment Method:

Clamp

Pitch Diameter:

0.8125 inches

Teeth Quantity:

26

Outside Diameter:

0.875 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.625 inches first end

Face Width:

0.188 inches

Hub Style Designator:

Split first end

Hub Diameter:

0.250 inches first end

Clamping Surface Length:

0.3400 inches first end

Material:

Stainless steel

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
