Body Style:

Plain, solid

Attachment Method:

Clamp

Pitch Diameter:

Between 1.0407 inches and 1.0417 inches

Teeth Quantity:

100

Outside Diameter:

1.061 inches

Nominallength:

0.365 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.240 inches first end

Face Width:

0.125 inches

Bore Diameter:

0.125 inches both ends

Hub Diameter:

0.375 inches first end

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t4 federal specification single material response

Surface Treatment:

Anodize

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
