Attachment Method:

Clamp

Pitch Diameter:

1.8750 inches

Teeth Quantity:

150

Nominallength:

0.385 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.281 inches first end

Face Width:

0.104 inches

Bore Diameter:

0.250 inches both ends

Hub Diameter:

0.312 inches first end

Clamping Surface Length:

0.250 inches first end

Precision Classification:

Quality number 12

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
