Body Style:

Plain, solid

Attachment Method:

Mounting hole

End Application:

Air defense system support

Pitch Diameter:

0.5000 inches

Teeth Quantity:

32

Outside Diameter:

0.531 inches

Nominallength:

0.437 inches

Tooth Form:

Standard

Pressure Angle:

14.5000 degrees

Distance Between Body Face And Protruding Hub End:

0.313 inches first end

Face Width:

0.125 inches

Bore Diameter:

0.234 inches both ends

Hub Diameter:

0.438 inches first end

Surface Treatment:

Anodize

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
