Pitch Diameter:

3.9375 inches

Teeth Quantity:

126

Backlash Designation:

Grade b

Nominallength:

0.812 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.625 inches first end

Face Width:

0.188 inches

Hub Diameter:

0.875 inches first end

Material:

Copper alloy 954

Material Specification:

Qq-b-671, class 3 federal specification single material response

Style Designator:

One protruding hub, one flush hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
