Pitch Diameter:

34.2500 inches

Teeth Quantity:

137

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.250 inches first end

Face Width:

6.000 inches

Hub Style Designator:

Plain both ends

Precision Classification:

Quality number 12

Material:

Steel

Style Designator:

One protruding hub, one flush hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
