Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

2.8120 inches

Teeth Quantity:

90

Bore Style:

W/counterbore both ends

Outside Diameter:

2.875 inches

Nominallength:

0.286 inches

Tooth Form:

Standard

Pressure Angle:

14.5000 degrees

Distance Between Body Face And Protruding Hub End:

0.031 inches second end

Face Width:

0.125 inches

Bore Diameter:

1.625 inches both ends

Hub Style Designator:

Plain both ends

Special Features:

Also 40 threads per inch

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
