| Groove Depth:                              |
|--|
| 1.250 inches                               |
| Groove Width:                              |
| 1.750 inches                               |
| Outside Diameter:                          |
| 16.500 inches                              |
| Overall Length:                            |
| 3.125 inches                               |
| Bore Diameter:                             |
| 2.500 inches                               |
| Bore Length:                               |
| 2.500 inches                               |
| Groove Radius:                             |
| 0.313 inches                               |
| Material And Location:                     |
| Steel                                      |
| Face Width:                                |
| 2.250 inches                               |
| Design Form:                               |
| Webbed                                     |
| Bore Type:                                 |
| Straight                                   |
| Bearings:                                  |
| Included                                   |
| Groove Quantity:                           |
| 1  |
| Counterbore Feature:                       |
| Not included                               |
| Bearing Quantity:                          |
| 1  |
| Keying Facility:                           |
| Not included                               |
| Split Hub Feature:                         |
| Not included                               |
| Web/spoke Relationship To Face Centerline: |
| Not offset                                 |
| Lightening Hole:                           |
| Not included                               |
| Integral Cooling Vane:                     |
| Not included                               |
| Groove Shape:                              |

| Bore Feature:  |
|--|
| Included   |
| Bearing Type:  |
| Sleeve   |
| Hub End Outside Diameter And Location:   |
| 4.250 inches both ends   |
| Distance From Outside Flange/rim To Hub End And Location:  |
| 0.625 inches both ends   |
| Special Features:  |
| 1/8 in. Npt drilled for lubrication fitting aa end of hub through bore at 30 degrees angle from center line of pulley face |
| Style Designator:  |
| Webbed or spoked   |
| Shelf Life:  |
| N/a  |
| Unit Of Measure:   |
|  |
| Demilitarization:  |
| No   |
| Fiig:  |
| T353-a   |
